

DON'T SKIP *the* HIP

Harvest Information Program

What is the Harvest Information Program (HIP)?

HIP is a hunter registration program that state wildlife agencies and the US Fish and Wildlife Service use to generate reliable data on hunting activity and harvest for migratory game birds.

Who should be HIP registered?

Every **hunter** who pursues **migratory game birds** must sign up for HIP.

Migratory game birds include **ducks, geese, swans, brant, coots, doves, woodcock, rails, snipe, sandhill cranes, moorhens, band-tailed pigeons, and gallinules.**

Why is HIP important?

During the HIP registration process, hunters are asked **10 short questions** regarding their previous year's migratory game bird hunting. The information gathered is used to identify what types of birds are being pursued.

WE NEED YOU, THE VENDOR!

When selling a HIP permit, please make sure you ask the customer the survey questions.

The survey takes just a few minutes. Follow the instructions provided by the Kansas Department of Wildlife & Parks.

Don't skip the HIP!

Thank you for your help!
